

# woodcarver GB

**cutting, carving, sculpting, trenching, remodelling, removing of antifouling, glue, paint etc.**

The ideal tool for all woodworkers, builders, boat builders, sculptors, craftsmen and handymen. It works in all kinds of wood, chipboard, particleboard, plastics and plaster (no stone!) etc.

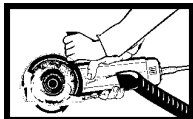

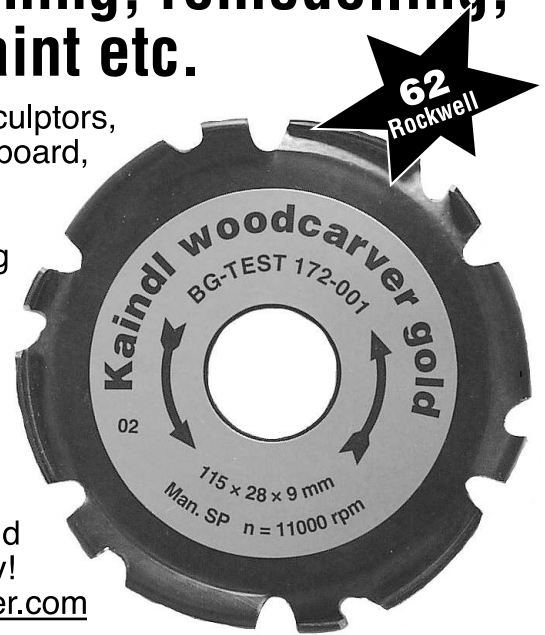

**Absolutely NO KICK BACK!**

Both extremely rough and extremely smooth and fine. Removing of paint-, antifouling-, silicone- or glue-residue.

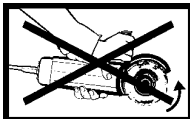

Ideal to notch off a lot of wood to run wires, cables, conduit or plumbing pipes. The better, faster and more accurate way to do the job. The **woodcarver** works in all directions, up and down, right and left without dust, chipping or burning. Attaches fast and easy to any angle grinder Ø 115 mm (4.5") and Ø 125 mm (5").

The safety guard with dust vacuum adaptor allows a safe and dust free work, even indoors. The original, Made in Germany!
